Boeing 757 Dispatch Deviations Guide (DDG) is not CAA approved. However, the Maintenance (M) and Operational (O) procedures contained in section 2 are accepted by the CAA as the minimum required to be performed. Regardless of whether an MEL entry is annotated with an (M) or (O) procedure pilots and engineers

Checklist Boeing 727-200 - Angelfire

Warning Lights Master Caution and System Annunciator lights, left and right. The Master Caution system was developed for the 737 to ease pilot workload as it was the first Boeing airliner to be produced without a flight engineer. In simple terms it is an attention getter that also directs the pilot toward the problem area concerned...
