This stand is way more better that other adjustable \$25 to 40 stands. However, This Bose UF S-20 speaker stand do not fit properly with the VIZIO satellite speakers! I need to drill a small hole on the speaker to fit them properly! Below the Bose mounting plate, there is a small pin about 5/8 of an inch below the mounting screw.

Yes. The Bose Surround Speakers connect wirelessly to the Bose Soundbar 500 and the Bose Soundbar 700 — so no wires are required from the front of the room to the rear. But the Bose Surround Speakers do require electrical power to power the wireless receiver and there is speaker wire connecting the wireless receiver to the speaker itself.

The stands are built solidly and look great with the speakers. The difference in sound quality after moving the speakers from a shelf to the stands was noticeable, not so much with movies, but wow with music. Particularly "big" music whether Queen, Bach or Green Day. These stands help Bose 301's shine!
