Cybernetics Second Edition Or The

Management (or managing) is the administration of an organization, whether it is a business, a non-profit organization, or government body.. Management includes the activities of setting the strategy of an organization and coordinating the efforts of its employees (or of volunteers) to accomplish its objectives through the application of available resources, such as financial, natural ...

International Journal of Machine Learning and Cybernetics ...

In cybernetics, the term variety denotes the total number of distinguishable elements of a set, most often the set of states, inputs, or outputs of a finite-state machine or transformation, or the binary logarithm of the same quantity. Variety is used in cybernetics as an information theory that is easily related to
