25 Statistics Every Person Living with Diabetes Must Know About Amputation
Diabetic Foot Ulcers and Amputation
There are some surprising statistics about how common diabetic foot ulcers are, how often they can lead to amputation and the ultimate cost of having a foot ulcer that results in an amputation.

25 MUST Know Statistics About Amputation Due to Diabetes

Type 1 diabetes (T1D), previously known as juvenile diabetes, is an autoimmune disease that is a form of diabetes in which very little or no insulin is produced by the islets of Langerhans (containing beta cells) in the pancreas. Insulin is a hormone required for the cells to use blood sugar for energy and it helps regulate normal glucose levels in the
