Boeing considered MCAS part of the flight control system, and elected to not describe it in the flight manual or in training materials, based on the fundamental design philosophy of retaining commonality with the 737NG. The 1,600-page flight crew manual mentions the term MCAS once, in the glossary.

~~CREW OPERATIONS MANUAL~~

The Flight Crew Training Manual (FCTM) is intended to provide information in support of procedures listed in the Flight Crew Operations Manual (FCOM) and techniques to help the pilot accomplish these procedures safely and efficiently. The FCTM is written in a format that is more general than the FCOM.

~~Flight Planning And Performance Manual 767~~

This Operations Manual has been prepared by Boeing Commercial Airplanes Group, Customer Services Division. The purpose of this manual is to: • provide operating limitations, procedures, performance, and systems information the flight crew needs to safely and efficiently operate the 747-400 airplane during all anticipated airline operations

~~Boeing 777 Flight Manual—Internet Archive~~

then the flight manual which is airline specific - has the flight and operational limitations, normal, abnormal, emergency checklists, procedures for the various phases of flight: pre-flight, takeoff, cruise, approach, training maneuvers (stalls, steep turns, etc) Although this manual is written by the airline, it is most likely based heavily on the manufacturer's flight manual.
