2007. After the impressive 2006 season,
KTM continued to impress in 2007.

Poggiali left the team and Kallio moved
up from the 125cc to the 250cc KTM
team. Compared to last year, the team
struggled more in the first few races,
initially only scoring point finishes.

I rode a 2004 250cc 2T KTM (unsure what model) a couple weeks ago that I swapped my XR650R for in some super tight slow trails and it was a blast. That's the only KTM I have ever ridden but when I had my KDX I always heard such grand things about the KTM 200 EXC I have always been dying to try one out.

KTM 125 SX 2005 - Present. KTM has
been serious about 125 cc-class
motocross, and this dedication has
manifested in the 125 SX for several
years now. The changes made by KTM
put in production for 2005 have resulted
in a greatly improved orange machine.
As far as the engine is concerned, KTM
left a good thing pretty much alone.
