### *K TO 12 GRADE 4 LEARNER'S MATERIAL IN SCIENCE (Q1-Q4)*

Student groups create working radios by soldering circuit components supplied from AM radio kits. By carrying out this activity in conjunction with its associated lesson concerning circuits and how AM radios work, students are able to identify each circuit component they are soldering, as well as how their placement causes the radio to work.

### *Shantytown Construction Redesign - Activity - TeachEngineering*

Most curricular materials in TeachEngineering are hierarchically organized; i.e., most hands-on activities are part of lessons, lessons are grouped into multiday curricular units and these again are bundled into subject areas. Some activities or lessons, however, were developed to stand alone, and hence, they might not conform to this strict hierarchy.

## *TeachEngineering Collection Resources | OER Commons*

About This Quiz & Worksheet. You'll be primarily assessed on topics connected to material science, like its relation to technology, its common materials, and what it is.

## *Focus on Fabrics: Putting Materials to Good Use - Activity ...*

Student teams each design, build and test a composite material for use as a concrete building block for shantytown use. The design challenge constraints include: using inexpensive and readily available materials, chemically resistant, physically durable, cost-effective and aesthetically pleasing. They test and improve their composite materials, both chemically and physically.
