Who We Are. ASM International is the world's largest association of materials-centric engineers and scientists. We are dedicated to informing, educating, and connecting the materials community to solve problems and stimulate innovation around the world.

**Metals Handbook-Desktop Edition**

The Metals Handbook Desk Edition is a comprehensive single-volume reference source on the properties, selection, processing, testing, and characterization of metals and their alloys. Although the information presented in this Volume is drawn principally from the multiple-volume ASM Handbook series, it should not be considered simply an abridged version of the larger work.
