~~2015 Ranger check engine code | PRC Polaris Ranger Club~~

2012 800 XP, my check engine light came on today when the ranger would not restart after a short ride, the screen showed a 0 on the left, 636 on the right and a small 2 under the 636.

~~Polaris Check Engine~~

I tried to use it yesterday and the "Check Engine" light came on with the 65590 code. I called the dealer and went over the situation. They did not think it was a problem and told me to reset the code (remove the black/negative cable from the battery for 1-2 minutes & reinstall the battery cable).

~~check engine light on | Polaris RZR Forum — RZR Forums.net~~

The Check Tech scan tool is a PC compatible diagnostic tool for Polaris 2009-Current ATV's/UTV's and 2012 current snowmobiles. This is a must have for an independent shop or the backyard tinkerer that doesn't want to go to the dealer to fix their machine. This tool will: Read and clear engine codes; Graph and log live engine data

~~How to Reset a Polaris Service Light | It Still Runs~~

The CHECK ENGINE indicator will come on for EFI faults. It's a good idea to only drive it if you're out on the trail and have to get back, but take it easy. You never know what could be causing it and could cause more problems than you already have.

~~Check engine code 636 | PRC Polaris Ranger Club~~

check engine and power steering lite on, engine quit running, turning key does nothing, shows --E ---oF any idea ? went for a ride today, started fine, ran for 30min, started to cut out, stopped running, started a couple times, moved maybe 200 feet, stopped for good, towed back to trailer. codes ?

~~Why hasn't Polaris addressed their "Check Engine" light ...~~

2014 RZR XP4 its showing a code 84, and code 190. my eps has gone out before and then reset itself when I turned RZR off , but this time it hasnt reset,, any ideas on how to reset it?

~~Polaris — How to reset Check engine light & EPS ...~~

I recently had the check engine light come on due to a damaged vane sensor. I replaced it, but the dealership says they are the only people that can clear the code that put it into limp mode so that it will run right again.

~~Check engine light and code 520207 | Polaris RZR Forum ...~~

The check engine light is on and also showing the power steering icon. I have no power steering. If I drive it/ get RPM's up the warning lights go out but come back on when I stop.

~~Polaris ATV/UTV Snowmobile Diagnostic Tool | OTB ...~~

The "check engine" is on and the wrench symble blincks 10 times on first start, any idea what it is? I'm sure there is a thread about how to read this, but can't seem to find it. Sorry if the answer is already posted 100 times.

~~How to clear a check engine light | Polaris RZR Forum ...~~

Polaris makes a line of ATVs that, like most vehicles, require regular oil changes. Polaris suggests changing the oil every 1,000 miles or 100 hours of driving, whichever comes first. If you are due for an oil change, the service light will come on. After you've changed the oil, reset the light to start the next ...

~~Polaris Trouble Codes | Polaris RZR Forum — RZR Forums.net~~

That one.) and saw the always-talked-about "extra Polaris engine mod" entitled "Check Engine" with the fancy code 0520530 (and a little 31 just to f*ck with you). Whaaaaaaa... D*mnit George Washington! You cursed my Slingshot! But haste - SlingShotForums.com to the rescue with a quick Google Search at a stoplight.
