[Randall Munroe - Wikipedia](#)

First, let's get a few things out of the way: In real life, we can't put a metal pole between the Earth and the Moon.[1]For one, someone at NASA would probably yell at us. The end of the pole near the Moon would be pulled toward the Moon by the Moon's gravity, and the rest of it would be pulled back ...

Relativistic Baseball. What would happen if you tried to hit a baseball pitched at 90% the speed of light? - Ellen McManis. Let's set aside the question of how we got the baseball moving that fast. We'll suppose it's a normal pitch, except in the instant the pitcher releases the ball, it magically accelerates to $0.9c$.

humor. In this charming talk, a reader's question about Google's data warehouse leads Munroe down a circuitous path to a hilariously over-detailed answer — in which, shhh, you might actually learn ...

What If?: Serious Scientific Answers to Absurd ...

So, too, does Randall Munroe. He seems to occupy a space near, but not on, that vacated by Gary Larson when the great Gary Larson stopped drawing the Far Side (January 1, 1995). If you are unimpressed by Gary Larsen or the Far Side or do not know who he is or what I'm talking about, hell man, read no further.

What If?: Serious Scientific Answers to Absurd ...

What If?: Serious Scientific Answers to Absurd Hypothetical Questions is a non-fiction book by Randall Munroe in which the author answers hypothetical science questions sent to him by readers of his webcomic, xkcd. The book contains a selection of questions and answers originally published on his blog What If?, along with several new ones. The book is divided into several dozen chapters, most ...
