Work sample tests require applicants to perform tasks or work activities that mirror the tasks employees perform on the job. For instance, applicants for an Administrative Assistant position may be asked to transcribe an internal memo using a word processor or to accurately file a stack of paperwork.

Sometimes, you might write a journal for school to help you deepen your understanding of what you're studying. Fortunately, writing a journal entry is a simple process. First, choose a topic to write about, like what's happening in your life. Then, write an opening for your entry and express your thoughts.

Simulation-based research (SBR) is rapidly expanding but the quality of reporting needs improvement. For a reader to critically assess a study, the elements of the study need to be clearly reported. For more information, see "Reporting Guidelines for Health Care Simulation Research: Extensions to the CONSORT and STROBE Statements ." For more on the joint collaboration between the societies ...

In this paper, spatial simulated annealing (SSA) is presented as a method to optimize spatial environmental sampling schemes. Sampling schemes are optimized at the point-level, taking into account sampling constraints and preliminary observations. Two optimization criteria have been used.

The journal Simulation Modelling Practice and Theory provides a forum for original, high-quality papers dealing with any aspect of systems simulation and modelling. The journal aims at being a reference and a powerful tool to all those professionally active and/or interested in the methods and applications of simulation. Submitted papers will be peer reviewed and must significantly contribute to modelling and simulation in general or use modelling and simulation in application areas.
