I have a 1989 Sea Ray with twin 4.3 lx (4bbl) engines . The port engine will backfire through the carb. when accelerating. I have changed the plugs, and wires. It runs fine at slow speeds. It has the thunderbolt iv ignition system. I have read that the ignition amplifier could be the problem, but I can't locate it.

You are bidding on a 1992 Sea Ray. Powered by a 4.3Lx V-6 Please note it has no trailer! Main problem with the boat is that the u-joints broke and nicked up the gimbal ring and gimbal housing. Parts can be replaced or welded. I have an additional yoke assembly that I will throw in so the drive is complete at that point. The hull has been scratched a bit.
