## **100 Scientists Who Shaped World History**

A scientist is someone who conducts scientific research using the scientific method to advance knowledge in an area of interest. In classical antiquity,

# Download Free The Scientists A History Of Science

there was no real ancient analog of a modern scientist. Instead, philosophers engaged in the philosophical study of nature called natural philosophy, a precursor of natural science. It was not until the 19th century that the term scientist came into regular use after it was coined by the theologian, philosopher, and historian of science
