Building and Cleaning Projects and Solutions - Visual Studio

A new solution may be created in many ways in VS.NET. The simplest is to create a new project—by default, Visual Studio .NET will create a new solution with the same name as the project, placing the solution files [] in the same directory as the project. Although this works fine for small projects, it isn't well suited to more complex applications.

Load solutions faster with Visual Studio 2017 version 15.6 ...

Solution Folders may be what you are looking for! What are Visual Studio Solution Folders? In Visual Studio, you can add virtual folders to group and organize your projects and files. Folders can be nested, collapsed, expanded, and even hidden in the Solution Explorer. Please keep in mind that these folders are entirely virtual.
