F23 VTEC Specifications | It Still Runs

VTEC and VVT-i systems were developed by Honda and Toyota respectively in order to improve the efficiency of car engines. VTEC (Variable Valve Timing and Lift Electronic Control) is a valvetrain system developed by Honda that allows engines to achieve turbo level specific output without the bad fuel efficiency that turbocharging normally introduces. VVT-i (Variable Valve Timing with ...

VTEC vs. iVTEC: What's the Difference?

The 2.3-liter VTEC engine was only used in the sixth-generation Honda Accords from 1998 through 2002. This engine was an optional engine as an upgrade from the 2.3-liter non-VTEC Accord DX. This engine was only available in the EX and LX trims and produced significantly more power than the non-VTEC models.
