~~The Wall Street Journal on Walmart :: The Future of Capitalism~~  
While Walmart did not explicitly say the election was the reason for the original decision, The Wall Street Journal first reported the change with less than a week to go before the election. The retailer reportedly told store managers the change was “due to the current unrest in isolated areas of the country and out of an abundance of caution.”

~~You'll Never See These in Walmart Again After a Failed 3 ...~~  
The Wall Street Journal was first to report the ending partnership Monday, citing unnamed people familiar with the situation who said the retailer found human workers could get similar results. There was also some concern about how shoppers reacted to robots doing the work, according to the report.

Those policies covered at least 1,400 employees in 1990, based on a company document reviewed by The Wall Street Journal. The document, called a death run, lists on page after page the names, ages and Social Security numbers of the workers, as well as how much money the company will receive for each employee's death, even those who die long after leaving the company.

~~The Wall Street Journal — Walmart.com~~

The Wall Street Journal has a news article up this morning about Walmart's latest results. "For the period ended April 30, Wal-Mart reported a profit of \$3.32 billion, or 88 cents a share, up from \$3.02 billion, or 77 cents a share, a year earlier," the article says, noting that the 88 cents a share exceeded the company's February projection of 81 cents to 85 cents a share.
