What If?: Serious Scientific Answers to Absurd ...

I rebuttal by explaining that it's not too different from Mythbusters. Sometimes the absurd questions have definite answers, like what would happen to the batter if a pitcher pitched a ball at nearly the speed of light. Some simply don't have fun answers, but he takes them a step further to make them fun!

What If? Quotes by Randall Munroe - Goodreads

First, let's get a few things out of the way: In real life, we can't put a metal pole between the Earth and the Moon.[1]For one, someone at NASA would probably yell at us. The end of the pole near the Moon would be pulled toward the Moon by the Moon's gravity, and the rest of it would be pulled back ...

Cartoon Answers to "Absurd Hypothetical Questions" [Slide ...

Indeed, a good proportion of the answers in this book involves the death of a few or a lot of people. For a science nerd like myself, this was an excellent and funny book. As other reviewers have noted, the mathematics can sometimes be difficult to grasp; however, you usually don't need to understand the underlying mathematics understand the answer to the different questions.

What If? (Audiobook) by Randall Munroe | Audible.com

Serious Scientific Answers to Absurd Hypothetical Questions "If humans escape the solar system and outlive the Sun, our descendants may someday live on one of these planets. Atoms from Times Square, cycled through the heart of the Sun, will form our new bodies. One day, either we will all be dead, or we will all be New Yorkers."

Some of the techniques listed in *What If?: Serious Scientific Answers to Absurd Hypothetical Questions* may require a sound knowledge of Hypnosis, users are advised to either leave those sections or must have a basic understanding of the subject before practicing them.

content

- What if a Richter 15 earthquake hit New York City? • Are fire tornadoes possible? His responses are masterpieces of clarity and wit, gleefully and accurately explaining everything from the relativistic effects of a baseball pitched at near the speed of light to the many horrible ways you could die while building a periodic table out of all the actual elements.
